New Business:

- **Title 5 Local Upgrade Request for 14 Foster Street, Curley and Hansen Land Surveyors**

This septic system was installed in August. When installing the septic tank, the installer encountered a large rock that was tied into the corner of the house foundation. Instead of moving the rock, the installer shifted the tank to the right of the house. When the as-built was being surveyed, it was determined the tank was nine feet from the abutting property and not ten. A variance request is being proposed for a reduction of separation between the septic tank and the property line, from 10 feet to 9 feet.

Mr. Ogilvie made a motion to approve the local upgrade requests per the as-built plan dated September 26, 2017. Mr. Jensen seconded, vote carried unanimously.
