PRESS RELEASE

MASSTRAILS GRANT-DeMARCO Accessible Trail

The Town of Avon seeks to notify residents and visitors that it has been awarded a MassTrails Grant in the amount of \$97,550 to construct a shared use pathway within DeMarco Park. These funds will be used to build an accessible shared use path through the Town's Park to provide current and future connections to existing paths within the property, other town properties, and regional trails and paths.

On Wednesday June 14, 2023, the Healey-Driscoll Administration announced \$11.6M in funding the MassTrails Program which will support 68 trail improvement projects throughout the Commonwealth. This new path in the park will be a 10-foot wide, stone dust path, running west to east through the property with connection points at North Main and East High Streets.

The Board of Selectmen thanks the DPW for the grant submission and the Healey-Driscoll Administration for the award. The project is expected to commence this summer/fall.
