For Our Groups

## Introducing Healthy Smiles for Life

Looking to help employees understand the critical connection between their oral health and their overall health? Altus Dental has created a new suite of communications designed to highlight the importance of oral health and preventive care at every stage of life.

Choose from:

- Early childhood
- Teen years
- Middle age
- Late adulthood

Contact your account representative for materials you can email to your employees.

## Altus Dental to launch two-factor authentication for member online accounts

At Altus Dental, the privacy and security of your employees' information is among our top priorities. That's why as of January 2021, we're enhancing their online security with the launch of two-factor authentication for online accounts at [altusdental.com](https://altusdental.com).

In this simple new process, employees will:

- Log in to their online account with their username and password
- Receive a message asking if they'd like to receive their secondary verification code by email or text
- Enter their verification code after they receive it
- Access their online account

If you or your employees have any questions, our friendly customer service team is happy to help. Call us at 877-223-0588 or email [customerservice@altusdental.com](mailto:customerservice@altusdental.com).
