Subject: Brentwood Area Water Main Replacement Construction Start

Dear Resident,

C.J.P. & Sons Construction Co, Inc., is the contractor for the water line replacement portion of the Brentwood project. C.J.P. expects to mobilize and begin materials delivery (i.e., pipes laid out along roadways) next week with construction commencing shortly thereafter. The expected duration of the water line project is approximately 6 months.

For May/June/July, C.J.P. expects to follow this sequence of streets: Peterson, Sullivan, Ballum, Eckberg and Brentwood, though subject to change.

The remaining streets, Cross, Feeley, Malley, McCoy, Noyes, Oliver, Packard and Porter will be scheduled for mid-summer to fall. A separate contractor will undertake reconstruction of the roads and sidewalks after the winter.

Every effort will be made to limit inconvenience to you during construction but, as with any project of this nature, you can expect delays traveling through the work area and should plan accordingly.

Please advise your children to stay away from the construction area. Playing on construction equipment, stored materials or in the construction area can be dangerous.

As part of this project, the contractor will replace the Town portion of the water service. This is the portion that runs from the new main to a shutoff at the start of your property (usually the back of the sidewalk). Our site representative will be contacting you regarding where this shut-off would be located.

Some may want to have their service line from that shut-off into their house replaced. That would be the homeowner's financial responsibility.

The Town's Representative, Mr. Fares Ibrahim of Tata and Howard will be on site with the contractor, should you have any questions. You may also contact Molly Coughlin at Tata & Howard, Inc. at 508-232-6242.

Your patience and cooperation is greatly appreciated.
